

Pearson qualification levels

Pearson qualification levels represent a comprehensive framework designed to categorize and define the various levels of academic and vocational qualifications offered by Pearson, one of the world's leading education companies. These levels help students, educators, employers, and institutions understand the relative difficulty, depth, and scope of different qualifications. Whether you're considering further education, upskilling, or career development, understanding Pearson qualification levels can guide you in choosing the most appropriate course or certification to meet your goals.

Understanding the Structure of Pearson Qualification Levels

Pearson qualification levels are structured to mirror the existing education frameworks in many countries, notably aligning with frameworks such as the Regulated Qualifications Framework (RQF) in England, Wales, and Northern Ireland, and similar structures in other regions. The system categorizes qualifications based on complexity,

learning objectives, and the depth of knowledge acquired.

The RQF and Qualification Levels

The RQF (Regulated Qualifications Framework) is a key reference point for Pearson qualifications in the UK. It consists of levels from Entry Level up to Level 8, with each level indicating increasing difficulty and depth of understanding:

1. Entry Levels (Entry 1, 2, 3)
2. Level 1
3. Level 2
4. Level 3
5. Level 4
6. Level 5
7. Level 6
8. Level 7
9. Level 8

Each level is designed to be cumulative, with higher levels encompassing the skills and knowledge acquired at previous levels, but with increasing complexity and specialization.
